Top High School Students Receive Scholarships

The highlight of the year for these students who have worked hard all year was climaxed on Friday afternoon when the Annual Scholarships sponsored by the B.P.O. Elks, O.O.R. Purple, Lion's Club, School Board and Ladies Auxiliary to the C.N.P. Hospital were presented.

Principal Horace Allen chairman for the proceedings opened the afternoon with "O Canada" which was sung by the students. High School Staff presents of the honor students and other interested parents. Mr. Allen then told all that the standing of the pupils this year was really remarkable as some of the marks were so close that only a fraction of a point separated the honor students from the runner ups. He stated that the standing of the honor students were some what identical to those sitting in the audience. He then introduced the two winners of the Elks' \$50.00 scholarships in Grade IX.

Mr. Adam Wilson presented the cheque to Jerry Lonsbury and Heather Fleming. Mr. Allen assured the Elks' Club representative that by originating these scholarships that they could assure their fellow members that no money so spent is better invested than in the youth of our town.

Mr. Wilson then congratulated the winners stating it gave him great pleasure on behalf of the Elks and wished them every success in their future undertakings. Jerry Lonsbury thanked the Elks' Club for the award. He also paid tribute to his teachers and parents for their help in obtaining this award. He also thanked the classmates he had worked with during the year for their friendly spirit of competition.

Heather Fleming expressed her thanks also to the Elks, her teachers and parents for their help and moral support when she needed it. She also paid tribute to her classmates.

The runners up for the awards in Grade Nine were William Liddell, Doreen McQuarrie and John Kratky.

Three honor students from Grade Ten then called upon to receive their awards. Mr. Allen introducing them stated that they were not only a credit to the school and their parents but were winners in all school activities.

Gail Vincent winner of the first prize of \$25.00 was also winner of an Elks' Scholarship in Grade Nine and only lost out by one point to a girl in Pincher Creek in order to win the Governor General's Medal in Grade Nine.

Donald Wood second place winner of \$15.00 was also a Grade Nine Elks' award winner.

Lorna Dancowise was a first time scholarship winner taking the third prize of \$10.00 but Mr. Allen expressed his hopes that she would continue in this manner and be a winner in the coming years.

Mr. D. Holly presented the awards on behalf of the Coleman School Board and stated that the Board would always do their best for the students to encourage them in their school work. He also stated that the Coleman student held a very favorable position in Southern Alberta.

Gail Vincent thanked the Board for their help and encouragement to the students and the interest they showed in all phases of the school work. She thanked her teachers and parents for their help and also her classmates.

Donald Wood stated that the awards were the outstanding event of the school year and thanked the Board for the personal interest they took in the students' welfare. He expressed his heartfelt thanks to his parents and teachers for their help and also his classmates.

Lorna Dancowise stated that the award inspired the students for the last five years in which they have been awarded to do their best and thought that without them the students would not try so hard to attain a good record throughout the school year. She thanked the Board, her teachers and parents for their help and en-

couragement throughout her school life.

Also her classmates for their spirit of friendly competition. The other honor students in Grade Ten were Gail Murdoch and Milan Vrosky.

Mr. Allen commented that the next award sponsors The Lion's Club may be a small club in numbers but were big in heart and solicitude for the youth of the town as this was not only shown in the fact that they were also the sponsors of the High School Curling Cup but had just completed a children's playground in the park of which they could be justly proud. He then introduced Mr. R. Hill, President of the Lion's Club who presented the three awards to the Honor students in Grade XI. The first award of \$25.00 went to William Truch who was the winner of the Governor General's Medal and the Elks' award in Grade IX and the School Board award in Grade X.

Kent Foster winner of the second prize of \$15.00 was unable to be present as he has left for Calgary had a similar record to that of W. Truch in that he had also won awards in Grade IX and X.

Jo-Ann Montalbetti winner of the third place award of \$10.00 also won an Elks' award in Grade IX. School Board award in Grade X. She was also a member of the Students Union executive.

Mr. Hill congratulated the winners, and expressed the hope that they would carry on the good work not only in their school life but after leaving school also.

Mr. Hill then said that W. Truch had attained an average of 89.2% in his exams while Jo-Ann Montalbetti standing was 82.4%.

W. Truch expressed his thanks to the Lion's Club and to his parents and teachers for their help and encouragement throughout his school life.

Jo-Ann Montalbetti thanked the Lions, her parents and teachers and students and stated that without the incentive of the scholarships that few would strive to achieve the high marks they were capable of.

Gerald Ryznar and Virginia Pecknich were the other honor students in Grade XI.

The award given for the girl with the highest standing in Grade XII wishing to enter the nursing profession and sponsored by the Ladies Auxiliary to the C.N.P. Hospital was won by Elizabeth Petusak. Since she has already left to enter training at the University Hospital in Edmonton the \$50.00 award was presented to her mother by Mrs. W. Gardner on behalf of the organization. Mrs. Petusak thanked the teachers and Mrs. Garners on her daughter's behalf.

Mr. Allen then introduced Helen Makowichuk the honor student for Grade XII. He stated she had also won the Elks' award in Grade IX, School Board award in Grade X, and the Lion's Award in Grade XI. Helen is leaving in October for the University of Alberta where she will take up a career as Lab Technician.

Mrs. A. Vasek on behalf of the O.O.R.P. then presented Helen with a cheque for \$50.00 and congratulated her for her wonderful achievement and wished her success in her future career.

Helen then thanked the Royal Purple for the interest they took in the school and all school activities. She gave credit to her teachers parents and classmates in being instrumental in helping her to achieve these high awards. She also thanked the town and the school Board for their help and encouragement. She expressed the hope that the students would carry on their wonderful academic record and would participate in all extra curricular activities that helped to make school life interesting.

Mr. Allen then concluded the afternoon activities by thanking the school Staff from Grades One to XII stating that without their full support and co-operation the work that was started with Grade One and continued throughout the school years of the students such days as the awarding of schol-

Coleman Elks Hold First Bingo Of New Series

The opening session of the popular Elks Bingo held in the Elks hall on Friday, September 23rd, saw a near capacity crowd on hand to try and take home the \$50.00 starting jackpot in 54 numbers.

Ten other grand prizes were also on the line.

A startling new offer was announced, that a special jackpot would be played for this season. The method was to mark the original card and that the player retain this card and bring it with him on every bingo that he attended and it would be stamped. At the end of the season this jackpot would be played for and for every game the winner had attended he would receive \$5.00. For example, if you attended 15 games out of a possible 20, you would receive 15 x \$5 or a total of \$75, or in other words, \$5 times the number of games you attended.

The next game will be played on October 7 with turkeys as the prizes. Following is the list of the winners:

No. 1, six pair nylon stockings, split by A. Corney and D. Ince of Blairmore.

No. 2, hunting knife and patch, by Mrs. A. Phillips.

No. 3, 100 pounds sugar, Split Mrs. J. Goulding and Mrs. C. Galt.

No. 4, mantle lamp, Mrs. E. Jones.

No. 5, rug, Mrs. D. Jaha.

No. 6, grocery hamper, Mrs. Ann Vasek.

No. 7, stainless steel fry pan, Mrs. Annie Brown, Blairmore.

No. 8, bathroom scales, Mrs. E. Burton, Bellevue.

No. 9, sweater, Bud Fisher.

No. 10, chrome kitchen clock, Tom Holstead.

No. 11, jackpot blackout, consolation prize split by Mrs. Moezel and Miss Kitty Malcolm of Frank.

Consolation winners: Mrs. C. Raymond, A. Dewar, Mrs. Jean Field, R. Jenkins, T. Kitaguchi of Crows Nest, Mrs. Johnston of Creston; Mrs. E. Raymond, Mrs. V. Wavcan, Mrs. Hurd.

An interesting note was the visitors from B. C. points and another from Montreal, Que., and your reporter must say they really enjoyed themselves. I also noted my boss really needed that clock—now maybe we will know the time around the plant—that is if his wife doesn't get it first.

A very important announcement was made by the Elks, that on the next bingo all proceeds from the sale of extra cards will be turned over to the Dunford Operation fund. This is a very worthy cause and the Elks and the fund committee sincerely hope that you will buy as many extra cards as possible.

Legion Appoints John McDonald Welfare Officer

In line with the new policy adopted by the Canadian Legion branches throughout Alberta, the local branch of the Legion appointed Mr. John McDonald of the Coleman teaching staff as welfare officer.

Under his jurisdiction will come all pension cases, welfare, and other D.V.A. assistance cases, from Coleman.

All veterans who have problems regarding any of the above-mentioned are asked to contact the welfare officer, and he in turn, will present the case to the Department of Veterans' Affairs for consideration. As this new policy has already proved very beneficial to veterans through the province, it is hoped that veterans will present any case that they may have to Mr. McDonald.

ships would not be possible. He also thanked the parents, the School Board the various organizations for sponsoring the scholarships and to the students for their good work in maintaining the high scholastic standing in the Coleman Schools throughout the years and hoped that they would keep up the good work.

A very enjoyable afternoon was concluded with the singing of the "Queen."

Coleman Collieries Accepts Contract To Construct Road

Coleman Collieries have accepted the contract to build a road to the Crows Nest Mountain ridge where a microwave tower is being installed. Telephone lines will also be run along the road to the tower.

A spokesman for Coleman Collieries said that the road would be a three and one half mile project through rock and would be entirely north of the Summit Lime Works. The road will start at a 500 foot elevation and will rise to a height of 6200 feet where the tower is located.

Approximately 25 men from the Collieries will be employed on the project and will be transferred for the time being from a strip project which will resume full operation on completion of the road work.

The spokesman also stated that work at the mines in Coleman looked very promising for the time being. The mines have worked four days this week and could have worked five but for the lack of cars.

Pythian Sisters Hold District Meeting At Hillcrest

Pythian Sisters of Southern Alberta held their sixth Annual District Meeting at Hillcrest on Sept. 21st at 12:30 noon, with Sis. Doreen White, District Deputy Grand Chief presiding. Sisters in attendance were from Medicine Hat, Coaldale, Lethbridge, Coleman and Hillcrest, also attending was Supreme Senior Nellie Douglas and Betty Smith, Grand Chief of Alberta and Saskatchewan.

Seating of the Officers of the Day was presided over by Sister Nellie Douglas with the Sisters of Progressive Temple, Coleman, forming the Guard of Honor. Each Temple exemplified various parts of the order, each one being worthy of praise.

A banquet was served by the United Church Ladies Aid which was enjoyed by all. At this time Mr. W. Kovach, M.L.A., welcomed all the ladies to Hillcrest, saying it was the first time such an event had taken place in Hillcrest but he hoped to see many more.

After the evening Sessions a combined gift from the five Temples attending was presented to Sister Doreen White, District Deputy Grand Chief, to which she gave her thanks. Lunch was then served, after which everyone journeyed home.

Minister Lands, Mines Tours Pass

Blairmore — The Hon. Mr. Norman A. Wilman, was a visitor to the Crows Nest Pass last Tuesday and Wednesday.

Mr. Wilman, along with other forestry officials, made a survey of the Dutch Creek Timber Block to gain first hand knowledge of the territory before a decision is made on the disposition of the block.

The minister also met with several of the local timber operators in order to obtain their viewpoint on the lumber business and how they would operate under the present timber shortage.

Mr. William Kovach, M.Y.A. who was instrumental in bringing Mr. Wilman to the Pass, has been trying to impress the government with the idea that the local timber operators should be given first chance at the Dutch Creek block. He feels that timber will be the mainstay in the Pass and that it would keep things going until the other industries developed.

He urged the government to try and keep as many people as possible employed in this area.

Board of Trade Holds First Meeting After Recess

The Coleman Board of Trade held its first supper meeting after a two month summer recess. With a fair number in attendance, plus three guests the meeting covered considerable ground in regards to the business that had accumulated.

Pres. Wm. Holyk called upon the Sec. J. R. Hill to read the minutes of the last regular meeting. With no discussion on these minutes new business got under way with the reading of the copy of a letter of appreciation sent to Mr. P. J. Loe, manager of the National Employment Service of Blairmore, in regards to the fine job that he had done in assisting the unemployed miners, who had been laid off previously, by Coleman Collieries. A letter of reply thanking the Board for their co-operation and for the letter of appreciation. Pres. Holyk then informed the meeting on the progress of the tourist shelter and of the fine comments received from tourists who had used it. He stated that over 1000 had used this shelter since it had been erected. And that the shelter had been officially turned over to the town. With regards to road signs directing the public to this spot that Mr. J. Hanrahan of the Department of Public Works was looking after this matter. Poster advertising this shelter had been distributed throughout South Alberta and B.C. A letter of thanks was to be sent to the Coleman Journal for donating these posters.

In regards to the riders from Cranbrook who journeyed to the Calgary Stampede Mr. Holyk stated that they had only intended to stay a few hours, but as it turned out they stayed three days. A reception committee had welcomed them at the Park, and that they had been served lunch on the day of arrival.

Mayor Abussafy gave a brief account in regards to the plans that the Board had made to welcome the Cranbrook Car Cavalcade to publicize the B.C. Golden Jubilee, which unfortunately failed to materialize. He stated that contrary to the report issued in the Cranbrook Courier in regards to the dinner offered to the Cavalcade that it was arranged for Coleman and not Blairmore. Mr. Abussafy has supposed that this error had come about by the Telephone operator stating this is Blairmore calling and not Coleman, but he

was in no way criticizing the operator, but as it had been understood with officials of the Alberta Government Telephones that calls originating from Coleman would be identified as such. The Board suggested that a letter be sent to the supervisor requesting that this be done in the future.

Wm. Holyk reported on the expense of the float entered in Blairmore Jubilee Celebration and stated that they had received second prize. A request from a representative of a S.A.K. Press Co. who are producing a Alberta Jubilee Booklet that the Board advertise in it was rejected by the members. In regards to the contract covering the neon sign by the overpass erected by the Board of Trade that the contract had been renewed, and that the monthly rental charge had been reduced from \$18.00 to \$9.00 per month.

The financial statement was read by C. Freeman and showed the Board in a fair condition with a surplus of \$800.00. Vote of thanks was extended to Mr. Freeman for the fine job he had done. A further vote of thanks was extended to Adam Wilson, monarch of the Grand Union for his co-operation in catering to these supper meetings. With the regular Board meeting concluding business was turned over to J. R. Hill of the Rodeo Committee who gave a very comprehensive report on this years operations. The accounts showed the committee had a deficit of around \$500.00. The picture was not quite as bad as it sounded as considerable debts had been carried over from last year.

The report showed contrary to rumors circulated that the Cranbrook Girls Band had not been paid \$250.00 but that only \$65.80 for two meals had been spent, plus \$24.00 for two bus drivers. The P.C.P.I. Bugle band from Calgary had been supplied with one meal costing \$28.00. A complete statement covering the cost of the Rodeo will be printed in the very near future so that all interested may know just how the money was spent and to whom.

To assist the Rodeo Committee the Board of Trade loaned them the required money to pay off all accounts still owing. The Rodeo committee are considering as to whether to run another again next year or drop it completely. Meeting adjourned.

Dr. Aiello To Leave Pass In Near Future

Dr. Aiello has notified the local union that he will be leaving the Pass in the very near future to take up practice in Red Deer.

Arrangements are under discussion with two doctors from Blairmore and the Blairmore local union for the assistance to our town. If satisfactory arrangements can be made Dr. Russell will give service along with Dr. Leisemer.

Mrs. Ernest Gale Dies At Hillcrest

Mrs. Ernest Gale, of Hillcrest, died at her home here Thursday evening following a lengthy illness.

Mrs. Gale, 65, was born in Bischoffen, Germany, on July 23, 1890, and came to Canada in 1926 settling in the Pincher Creek district. After a one year stay there the family moved to Hillcrest where they have resided since. Surviving are her husband Ernest and one son Irvin of Hillcrest and a daughter Helen. Mrs. Ken McCrimmon of Rocky Mountain House, three grandchildren, four brothers and one sister in Germany.

Funeral services will be conducted from the Hillcrest United Church at 2 p.m. on Sunday afternoon, Sept. 25 and interment will follow in the Hillcrest Union Cemetery. The Rev. Roy Chubb of Blairmore will officiate at the services.

Blairmore Man Awarded High Masonic Honor

Walter Lord of Blairmore, has been awarded the highest honorary degree in the York Rite of Free-masonry.

The degree is conferred only on those who have held the highest office in each of the four bodies of the rite.

Mr. Lord was Master of Rocky Mountain Lodge of Masons at Blairmore in 1931; First Principal of Hillvue Chapter, Royal Arch Masons, at Hillcrest in 1932; Master of the Alberta Provincial Council, Royal and Select Masters, at Lethbridge in 1933-34, and Preceptor of the Westminster Preceptory, Knights Templar, at Westminster in 1948.

He was elected to membership in the Western Canada Priory and his election confirmed by Convent General of the order on Sept. 14.

To Speak at St. Paul's United

Rev. W. J. H. Smyth, M.A., B.D. of Toronto, Ont., will be guest speaker at the 10:00 a.m. service at St. Paul's United Church at Coleman on Sunday, October 2nd.

World-wide Communion Sunday will be observed at the morning service.

Starting a car in a closed garage may cause the death of the driver by carbon monoxide fumes, which are odorless, invisible and tasteless. The garage doors should always be opened before any attempt is made to start the engine.

Colonial 'cop' travels 2,500 miles to learn from RCMP

OTTAWA.—A British island colony in the West Indies has sent a Negro police sergeant more than 2,500 miles to Ottawa to learn crime detection and horsemanship from the Royal Canadian Mounted Police, a Canadian Press story reveals.

Sgt. Fitzherbert Bancroft, senior non-commissioned officer for the mounted branch of the Barbados police force, is taking a six-month training course at the RCMP's Rockcliffe barracks. He says he was sent to Canada because training methods used by the RCMP are rated as tops throughout the Commonwealth.

Main part of Sgt. Bancroft's training will be horsemanship, a specialty of Canada's federal police force. He hopes to help improve the horsemanship of members of his country's mounted police.

During his period of training here Sgt. Bancroft will take the equitation course received by all members of the RCMP who participate in the force's famed mustang ride. He also will study the methods used by Canadian Mounties to train horses.

Unarmed police
Sgt. Bancroft says the Barbados mounted police maintain 23 mounted men on duty at all times. This unit forms part of the 612-man Barbados police force, the sole law enforcement agency on the island. "All in all," he says, "we work in much the same way as the mounties do here."

The force uses horses the most to patrol the huge sugar plantations on the island. They operate from 17 stations, many of them out-of-the-way areas. The Barbados policeman is unarmed like the British "bobby." "In fact," says Sgt. Bancroft, "as far as laws are concerned we are quite often referred to as Little England."

Recruits for the force must meet requirements similar to those

Car that stops automatically

WASHINGTON.—A radar-equipped automobile said to stop automatically when something gets in its way has excited enthusiasm from Representative Louis Rabaut (D-Mich.).

Rabaut described for the congressional record the mechanism devised by Carl Rashid, Detroit safety engineer.

The car has a radar screen directly below the grillwork, several inches high and extending the width of the automobile. This projects an impulse, he said, "that is guaranteed to halt the car should anyone or anything get in its path."

There is a similar apparatus on the rear of the car to prevent juring pedestrians or property while the car is moving in reverse.

Rabaut said: "If you are approaching an object at a high speed, the radar is reducing car speed before you, the driver, are actually aware of impending danger. The car will then, if not manually halted, stop before striking the object."

Superstitious

WINNIPEG, La.—Hub Dear believes crows are superstitious. This, says Dear, makes them a cinch to keep out of watermelon patches. Just drive stakes at intervals through the patch and stretch string from stake to stake. "Thinking the string is some kind of trap he will not light in the patch where the string is placed," said Dear. "The crow is a smart bird but he is also very superstitious."

Dear discovered this version of the traditional scarecrow in 1917 and has used it since.

DRAFTSMAN ARE IN GREAT DEMAND. From these well-paid secure jobs by a proven successful home-study diploma course. Free folder. Low Fall Term. Primary School of Drafting, Dept. 1, Box 122, Station Q, Toronto, Ontario.

Do FALSE TEETH

Rock, Slide or Slip?

FALSE TEETH, an improved powder is applied on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. FALSE TEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FALSE TEETH at drug counter.

How to Reduce Swollen Painful Piles

Here is a safe, clean, easy way to get relief from the nagging distress of swollen, painful piles without the violence of ointments, pile pins or suppositories. The secret is in taking just one small Hem-Roid Tablet, with water, two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, relieves itching, soreness and pain. Helps shrink piles and permits them to heal. Why suffer needlessly when Hem-Roid offers you so much. Get a package today. See for yourself how nice Hem-Roid is to use. How effective it is and how much more comfort it will quickly bring you. All drug stores, Low's, or Hem-Roid refunded if you are not 100% pleased.

300-Year-old body of Indian elder found

SAINT JOHN, N.B.—The 300-year-old body of an Indian elder has been found here by Archaeologist J. Russell Harper of the New Brunswick Museum, reports Canadian Press.

The body was located at the site of what is believed to be a fort built by French governor Charles LaTour in 1631 and had been buried under tons of rock and earth.

The unexpected find spurred excavations in the north end of the city as a small group of archaeologists continue their search for a page of early Canadian history. The Indiana grave and its dozens of symbolic decorations are the most significant finds to date. The historians' belief that the French had fortified the site was heightened by discovery of part of a stone wall, several cannon balls and pieces of Venetian glass bottles.

Think grave was moved
Mr. Harper says it is probable that the Indian may have been buried originally on the north shore of New Brunswick and moved here during one of the frequent migrations to the mouth of the St. John River.

More than 200 multi-colored glass beads, five wooden-handled knives, an ornate pipe carved from bone, an intricate copper chain and a small roll of copper wire were found in the grave.

Mr. Harper says the gravesite was part of an Indian encampment which may have been near a French settlement because of a dagger, shot mould and awls found near the body.

Home Workshop

PATTERN 439

The piece sketched above was created by using a small living room where there was a great deal of everyday living. The family's needs required space for a few books as well as three little things of daily use. The best wood that could be afforded was 1/2-inch plywood. This job was strictly utility. Yet the design could be in the heirloom class if made carefully from solid stock in one of the fine grained cabinet quality woods. The curves and all irregular shapes are traced from the pattern to the wood ready for sawing. Copy of pattern 439 will be mailed for 35 cents.

Where there are children to be gotten off to school, shoes need shining and hampers bulge with

PATTERN 280

frocks and things to be tubbed. This kit is the handiest you ever saw. It has foot rest that serves as a handle. Compartments for cans, bottles and brushes. The hamper fits under a window and we made the bottom only ten by 24-inches for convenience in homes where floor space is scarce. These pieces make excellent class projects for the youth taking shop when school opens. Pattern 280 is 35c per copy, or it will be included in the Small Household Furniture packet of five standard size patterns for only \$1.50 post-paid.

Address order to:
Home Workshop Pattern Service, Department P.F.L., 4433 West Fifth Avenue, Vancouver, B.C.

LIVING SYMBOL.—Young monk, lower centre, bears striking resemblance to the Buddha whose faith he professes, as he peers from a setback on the tiered roof of the largest pagoda in Bangkok, Thailand. Two fellow monks, above him, bask in the sun during a break in their meditations.

First memorial to Lord Selkirk

WINNIPEG.—The first marked memorial to Lord Selkirk, the energetic Scotsman who brought the first white settlers to the Red river valley in 1812, is to be built in downtown Winnipeg.

The federal historic sites and monument board has commissioned Professor Roy Sellers, University of Manitoba architect, to design a monument to Manitoba's founder. Construction will start within two weeks and the unveiling ceremony will be held Sept. 27.

The memorial will consist of a stone wall 25 feet long and about three feet high. It will be mounted with a 30-foot flagpole and contain a bronze marker.

A statue of Lord Selkirk stands on the east side of the legislative building but the figure is not identified.

Lord Selkirk—Thomas Douglas—brought Scottish settlers to the Red river valley after obtaining from the Hudson's Bay Company 116,000 square miles of land for a colony. The first settlement was destroyed and 21 settlers killed by agents of the North-West Trading Company of Montreal in the massacre at Seven Oaks in 1818. Brokenhearted, Lord Selkirk died in France four years later. The land was returned to the HBC in 1835.

Lord Selkirk's memory has been revered since by the Lord Selkirk Association, first formed in 1912 during centenary celebrations.

Diabetic child better off eat normally

A diabetic child is better off eating normally than on a restricted diet. That is the view of a Swiss medical scientist. Before 1946, a doctor kept his young patients on a light diet consisting chiefly of fruits and vegetables and containing very little meat. Since then, he has allowed them to eat much the same food as other people do provided that they avoid overeating and nibbling between meals. The results have been excellent.

The doctor reports that none of the children has had to undergo hospital treatment since 1948. Their growth has been much better than it was when they were on the restricted diet. And most of his patients needed no more insulin than they did before. Allowing them to eat normally has also been most successful in improving their state of mind. Hunger, nibbling, and anxiety about the nibbling are eliminated. The patient grows in self-confidence. And as a result, the doctor states, the diet "changes a sick person to an almost healthy one who finds his way in life much better than before."

It is estimated that 28 percent of all accidents happen to the leg and foot.

PEGGY

Alberta irrigated farms have small portion irrigable land

(By W. L. JACOBSON)

Most irrigated farms in Alberta contain less than a quarter-section of irrigable land, and irrigation farmers here must, necessarily, take every possible advantage offered by irrigation in order to increase yields to the maximum and secure the highest possible return per man unit.

It is for this reason that the irrigation farmer needs a well-developed green thumb, to use the language of the gardener, and the green in this instance is essentially a thorough understanding of the balance of the several factors in soil, plant, and water relationships that determine growth and ultimate yield as well as quality of crops.

Moisture may be regarded as the central factor in plant growth, but moisture alone is not enough since soil fertility usually becomes the limiting factor as adequate moisture is supplied through irrigation. The fact is that ultimate success in irrigation can be achieved only where all factors of plant growth are brought into balance, and soil fertility requires special emphasis in irrigation farming.

The two essential elements that are normally deficient in the irrigation soils of this region are phosphorus and nitrogen. As a result, ammonium phosphate and various nitrogen fertilizers are being used on many irrigation farms, and the use of these chemical fertilizers is likely to increase as irrigation farmers gain in experience and their farming methods become more intensive.

However, chemical fertilizers alone have not given maximum yields even under optimum moisture conditions. Studies here indicate that the so-called soil improvement crops fill an important role in maintaining high levels of productivity under irrigation, not only in terms of total yields but also in quality of crops.

Results of five years of irrigation studies at Taber show that yields were nearly doubled in rotations where crops consisted of 50 percent legumes, while quality was maintained or greatly improved.

The tendency of the dryland

Outdoor meals fun for the whole family

Out-door meals are fun for the whole family, even for mother if she plans wisely. Get the whole family to share in the fun by each taking one responsibility.

If there are sandwiches to make at home, you can be clever by making them with frozen slices of bread.

Bread is easier to spread when frozen than when soft and crumbly. The chill from frozen slices put together in closely wrapped sandwiches keeps the filling in between fresh—even keeps lettuce crisp for several hours. That chill also helps keep other foods in the lunch box cold. Then, when the slices thaw, they have the characteristics of fresh bread. All in all, it may be considered a "cool" idea for hot weather.

Frozen sliced loaves are especially convenient because the slices separate readily without thawing, and may be used frozen not only for sandwiches but also for toasting. A frozen loaf thaws in 3 to 4 hours at room temperature. Frozen slices thaw more quickly.

SMILE OF THE WEEK

First Neighbor: "How did that naughty little boy of yours get here?"
Second Neighbor: "That good little boy of yours hit him with a brick."

A weakness you can use

A ball-hit deep and hard to the backhand corner of the court is the nemesis of practically every tennis player. Many can return it safely enough but only one in a hundred can do it with speed, power and accuracy.

To make use of this weakness, place several shots well over on your opponent's forehand court. When you have him over on this side of the court, suddenly make your play for his backhand corner. Prepare for a fairly easy return and get ready to put it away for a point.

How to avoid cramps

We often read of swimmers who have drowned or nearly drowned after suffering an attack of cramps. Here are a few hints that

will help you avoid this danger.

1. Never swim in deep water if you are just recovering from an illness, feel tired or are "out of sorts".
2. Wait at least two hours after a meal. It's hard on your digestive system and throws an extra load on your heart if you go into the water too soon. Organize your day so that you have something interesting to do right after a meal and won't be tempted to go in swimming too soon.
3. Try to get in top physical condition and don't tax your strength beyond that condition.
4. Avoid swimming in water you are very cold.

Protect your bruises

Bruises, like blisters, are common in sports—and are usually neglected. Just the same, even though they usually aren't serious enough to stop you from playing, they can cause a lot of trouble if they are injured again before they are properly healed.

Make a good thick pad of "cotton batten". Tape this carefully over the bruise. This will help you avoid further injury and will prevent pain if you get hit on that spot again.

Remember, it pays to take care of any injury. Never neglect even the smallest blister or bruise.

TRY AND STOP ME!

By BENNETT CREEP

The census taker was unaware that he was talking to the town's most notorious loafer. "You must have some sort of business," he persisted. Cornered, the lazy one announced, "Well, you might say I operate a hand laundry."

"Now we're getting some place," "Where's your business located?"

The self-styled hand laundry proprietor answered, "Look behind you. Here she comes now."

"Back in the guard house again, eh, Pte. Butteneimer?" observed the sergeant grimly. "What did you do this time?"

"It's a gyp, sarge," complained Butteneimer bitterly. "I just obeyed orders. I was assigned to help out at the reception for Sen Bloop, and the captain told me to stand at the entrance and call the officers' names."

The new typist, fresh from college, was so pretty that nobody had the heart to reprimand her for obvious short-comings. The boss saw her frantically searching through the files one morning and said consolingly, "There, there, Mary. If you're lost something again it isn't serious enough to burst into tears about it."

"It certainly is," said Mary, choking back a sob. "This time it's my lunch."

A couple of smart-alecs from New York were driving in Maryland when they found the road blocked by a sign warning: "Closed. Please detour." "Road looks okay to me," snarled the driver. "Some joker put that up; but he owns a gas station on the detour." So they tossed the sign aside and proceeded about 10 miles, where they found a bridge washed out. After driving all the way back they found the sign was back on the road—with a footnote reading: "It really was closed, wasn't it?"

There's such a thing as doing your job too well. Maurice Mansell and Enid Bouton, who operated a marriage bureau in Wolverhampton, Eng., are shutting up shop. Getting married.

Tweedsmuir National Park in British Columbia covers about 5,400 square miles.

THE FIRST ACE of his career was registered in the opening round by Jerry Barber in the Canadian Open at Toronto. Barber, who hails from Los Angeles, cannon a No. 7 iron the par-three 130-yard first hole. Looking over his shoulder is Gardner Dickinson.

MARINE SAUCER—Tiny, gasoline-motor-driven water scooter makes its debut in West Berlin, Germany. It put-puts over the waves at about 10 mph and is steered with a motor scooter-type handlebar.

Longer seasons, larger limits feature game bird seasons

REGINA.—Longest seasons and largest bag limits allowed anywhere in North America highlight Saskatchewan's 1955-56 game bird season, according to a recent announcement by Game Commissioner E. L. Paynter. Waterfowl are very plentiful this year, Mr. Paynter said, and because of this there has been some relaxation in bag limits and seasons, with the season opening a week earlier than last year.

The Game Commissioner appealed to sportsmen to treat all firearms with respect when hunting this fall, to avoid a repetition of last year's 38 hunting accidents with their death toll of 13. He also asked hunters to be courteous as well as careful, since a large part of Saskatchewan's hunting area is on privately owned land.

Following are the 1955-56 season dates:

Ducks, Geese and Coots—North zone, September 1-November 30; south zone, September 7-December 15.

Wilson's Snipe—North zone, September 1-30; south zone, September 7-October 8.

Shin-labeled Grouse, Hungarian Partridge and Ruffed Grouse—Throughout the province, October 15-November 12.

Spruce Grouse—Fringe and northern area, October 15-November 12.

Cock Pheasants—Throughout the province, October 1-November 12.

Ptarmigan—Fringe and north-

Trusts bank with money

MINNEAPOLIS.—Amen Balkin, 63, trusts banks with his money again.

Police were astounded when Balkin dumped \$5,754 in small bills out of a gunny sack when the officers arrived to order him out of his small hotel room at the request of the management.

He said he had been keeping his savings in his room since he lost \$400 when a bank failed in the depression.

Officers explained to the odd-looking worker that bank deposits now are insured by the federal government.

Balkin was escorted to the nearest bank where it took eight tellers two hours to count up the money, most of it in dollar bills.

Ticklers

"This warm milk all the time! How about some ice cream?"

Says human brain works better with shot of helium

PEARL HARBOR.—Retiring Rear Admiral Charles B. Momen says the human brain—given a shot of helium and oxygen—can function faster, better and more efficiently.

Momen, who invented the Momen lung, hopes to put his theory into practice when he retires from the navy about September 1.

Momen heads Joint (Atomic) Task Force 7 with advance headquarters at Pearl Harbor. His lifetime work with navy divers and submarines produced the submarine's escape device which bears his name.

Divers benefit from latest theory was born of these ideas.

"Deep-sea divers work longer

hours and produce better work while breathing a mixture of helium and oxygen," he told a reporter in a recent interview.

"Why not doctors, office workers, government officials or students?"

"This helium-oxygen mixture could be piped into hospital operating rooms, schools, offices, warships—wherever acute mental processes would be advantageous," he said.

"Some day you may be sitting in a cool, comfortable office, breathing clean, invigorating gas mixtures and enjoying life in a new way. Or working 12 hours a day without fatigue, or doing six hours' work in four," Momen said.

He said he wants to work on this theory when he enters civilian life but so far has made no commitments on research or financing.

"Preliminary research and development will be expensive," Momen said, "but the returns should be substantial."

"Improvement in brain function might be marginal but any improvement in a brain that's paid \$50,000 a year should be worthwhile," he said.

The Momen lung revolutionized submarine escape devices. It purifies stale air and permits a man escaping from a sunken sub to breathe the same air over and over again until he reaches the surface.

Would Momen's new air mixture give modern man a bad hang-over? Momen doesn't think so. "You might feel like you'd had a beer or two," he said, "but it would wear off."

AMERICANS' TALLEST WHITES

The tallest body of white people in the world are the Americans. Estimates show that the average height is increasing at the rate of one inch every 15 years.

Quick Canadian Quiz

1. What is the largest denomination of bank note issued in Canada?
2. What proportion of Canadian households have automobiles: 1 out of 10, 1 out of 6, 1 out of 4, 1 out of 2?
3. What is the average annual wage of male farm help, without board, in Canada?
4. What is the total strength of the R.C.M.P.?
5. The provincial governments last year had total revenues of \$157,997,000 from the sale of liquor. Of that total how much was profit?

ANSWERS TO QUICK QUIZ

5. Of total liquor revenues of \$158 million, \$123 million was profit. 3. At mid-May annual farm wage without board averaged \$1,460, about \$15 less than a year previously. 1. \$1,000. 4. About 4,500 officers and men. 2. Better than 1 out of 2. 55 of 100 have automobiles.

Here's the Answer

Helpful Hints

When sewing in a room with a carpet or large rug, a large sheet tucked on the floor will catch threads and scraps. It is quickly and easily taken up when the work for the day is finished and makes sweeping and dusting unnecessary.

Smoothness and glossiness when ironing starched pieces can be attained by stirring the starch with a paraffin candle three or four times while boiling, and just before removing from the fire.

To make mashed potatoes more fluffy, add 1/2 teaspoonful of baking powder to the milk and butter before adding them to the potatoes.

Try using linoleum instead of oilcloth to cover the kitchen and laundry tables. It will last much longer and will be far more satisfactory in every way.

VISIBLE FOR FIVE MILES

Since 1934, the naval and merchant ships of all nations have used the International Code of Signals, which consists of 40 flags whose colored markings are visible up to five miles in daylight.

* Canadiana: At Uranium City, Sask., a "mechanical cow" is solving the milk supply problems, a new industry in which powdered milk is being reconstituted, pasteurized, homogenized and bottled mechanically. . . . Charlie Nel-Brandt at Ebenezer, Sask., now has plenty of pig hocks, one little pig being born there with five feet. . . . At Shelburne, N.S., some Davy Crockett went out to the cemetery and shot up every breakable object, including flower receptacles, etc., and then wound up by putting a neat hole through the hind quarters of a pet cat up town. . . . At Chilliwack a gentleman had the most expensive pineapple on record; he calmly went into a fruit store, reports The Progress, picked up a pineapple, strolled out with it; the R.C.M.P. patrol car picked him up and it cost him 20 bucks. . . . At Peachland, B.C., 19-year-old Shirley Mae Gerrie did a solo flight after only 6½ hours instruction, and hopes to have her license now in two weeks more. . . . The Bowmanville (Ont.) Canadian Statesman has a story on W. J. Scantlebury who has spent over fifty years in the photography business, yet today doesn't have a single camera in his home; his only hobby is watching television. . . . A \$23,000 ten-ton grader stolen from a Toronto construction company was recovered undamaged after being stolen, near Smiths Falls; when found about 30 gallons of fuel, enough to cover 15 to 20 miles, had been used. . . . Retiring from the postal service at Hartland, N.B., was Miss Sarah Currie; her career with the p.o. started six years before the First Great War. . . . A freak accident occurred when 5-year-old Rosemary Chestnut was visiting Evergreen cemetery in Trenton, Ont., with her parents; a 200-lb. tombstone became dislodged, fell on her legs, crushing it.

* Cranbrook (B.C.) Courier: "Vigilance of the voter in the final analysis is his only insurance against slipshod government and complacency in the civic administration." . . . Canadian Statesman, Bowmanville, Ont.: "Under a profit-and-loss system there is no guarantee that this increase will be automatic. And a nation in which everything is guaranteed would be distinguished, only by a fraction, from a totalitarian state. But can an annual wage be really guaranteed when there is no guarantee of an annual profit?"

* Edmonton Weekly Sun: "There is a theory that our problem is not due to an over-abundance of food in the world—that, in reality, two-thirds of the world's population doesn't get enough to eat. No doubt, there is some truth in this argument, but it surely isn't the whole truth or nations where these supposedly starving people are living would be begging us to sell them wheat on some terms or other." . . . Hartland, N.B. Observer: "The Dominion Government, however, initiate the expedient of tax rentals, which do not even come close to solving the fiscal dilemma. They were not intended to. They merely place the provinces in a position of greater financial dependence upon Dominion authority than the Constitution intended. The sooner Ottawa sees how this state of affairs is weakening the fabric of Confederation, the better it will be for Canada's future."

* Sydney (N.S.) Post Record: "Those who move to the country can't expect to have it both ways. We have heard them yelling for sidewalks, fire protection and the best of modern education. The trouble with these people is that they are demanding the best possible of two contrasting worlds. They want the best of the city can offer without paying for the services that go with urban habitation."

* Lachute (Que.) Watchman: "Many people still, look on forest fires as a spectacle of the distant wilderness. They forget that their pay cheques are menaced by this destruction of our resources. The so-called wilderness is a harvest field of productive woodlands, furnishing the pulp and paper industry with over a billion dollars each year, to be distributed to every corner of Canada."

* Yorkton (Sask.) Enterprise: "On the other hand we do not look on the state as a sugar daddy, responsible for all our needs from the cradle to the grave. We have a healthy fear of big government as a threat to individual liberty and we refuse to advocate the turning over to the state anything that can be accomplished by smaller and lower groups."

2,000 Canadian Nudes Still Prudes, Femme Writer Finds

What makes an otherwise normal Canadian girl want to strip off her clothing and parade around nude in the company of men?

According to Mildred Harris, a columnist for a British Columbia sunbathing magazine, and some 2,000 other Canadian sun-bathing devotees, the desire to acquire a good coat of tan all over "is not only healthy," Miss Harris says, "but refreshingly comfortable. Finest thing in the world. Like stepping into paradise."

Not so at all, counters Jean Howarth, columnist for the Vancouver Province. Miss Howarth recently visited a British Columbia nudist colony in the line of duty, and her findings, with rebuttals from Miss Harris, are printed in the current August issue of Liberty Magazine. It's a clothes-off, no-holds-barred battle.

Miss Howarth confesses at the beginning she has nothing against bare skin. On some people, she thinks it looks good. And in some locations—such as the South Sea Islands—it could be a perfectly intelligent development. But people who shed their clothes three miles out of Whalley, B.C., in her opinion, are not doing it for either beauty or comfort.

The camp at Whalley, B.C., is just one of 15 nudist camps now active across Canada. In British Columbia, there is the Pac Sun Club near Victoria; the Van Tan in Vancouver (the oldest in Canada); Sunny Trails, New Westminster; and the Border Tans, located near Langley. Then there is the Edmonton Club in Edmonton, Alta.; The Sunny Chinoicks, Calgary, Alta.; The Manitoba Outdoor Club, Winnipeg, Man.

Four large camps are located in Ontario. They are Northaven, near North Bay, (largest in Canada with its own lake); Niagara Gymnosophical Society, Welland; the London Sun Club, London; Toronto Gymnosophical Society, Toronto. In Eastern Canada, the Atlantic Recreational Club is located in New Brunswick.

"Generally speaking," Miss Howarth writes, "I felt the nudists at Whalley, B.C., were people with a quirk, and that in the nudist camp they had found a way to express themselves, that was, roughly speaking, socially acceptable."

"The results," she says, "were enough to make an artist quail. A lot of children, a few women, but mostly men. And not one of them calculated to arouse the old Eve. It was a dreary procession of slumped shoulders, pot-bellies, operational scars, and minor imperfections. Apart from having nothing on, they were entirely conventional. They might have escaped from body covering, but their souls still wore corsets."

These opinions did not find much favor in the eyes of Mildred Harris, the writer for the sunbathing magazine, and a practising nudist since 1939.

"Why wear clothes when even a bathing-suit seems hot?" Miss Harris wants to know. "Give me a sensible reason for wearing clothes in winter? Oh, I know you will say, 'One must be decent.' But isn't decency something inside

you? Is it something you can put on — by the yard? If you can accept the idea of nudity in the home (and it is recommended now by leading child psychologists), then you should be able to accept the idea of nudity in our great outdoors — among friends of high moral character."

"We 2,000 Canadian sun-bathers strip off lewd prudery along with our clothes," Miss Harris states.

And as for Jean Howarth's assertion that during her visit to the Camp at Whalley, B.C., she did not notice many women present, Miss Harris demolishes that argument with the flat statement, "She couldn't see the women, for looking at the men."

Liberty Magazine.

Thunderbird styling featured in 1956 Fords

Safety features offered for the first time by any automobile company, increased power, and new Thunderbird styling are some of the new features to be seen on the 1956 Fords which go on display across Canada on October 5.

With new lower body silhouettes, the new Fords will be built in four series — Fairlane, Station Wagon, Customline and Mainline — offering 17 body styles, including a new two-door six-passenger Parklane Station Wagon.

A "Thunderbird Y-3" engine with 292 cubic inches displacement leads the power selections available for 1956. It is standard on Fairlane and Station Wagon models, with four-barrel carburetor and dual exhausts. Customline and Mainline Fords offer a Y-8 engine with power substantially increased over 1955. All models have a choice of Fordomatic, overdrive, or conventional drive.

Research by the Ford Motor Company, coupled with studies of medical groups, led to development of a "Lifesaver design" in the 1956 Fords.

The company is the first in the industry to adopt the safety concept of "packaging the passenger" as a means of limiting accidental injury. Research has included repeated full-scale crash tests of the new equipment on the Ford test track at Dearborn, Mich. The new injury-prevention study is a companion project to Ford's accident prevention program which includes development of better brakes, steering, and other mechanical improvements.

In the new 1956 Fords, "Lifesaver" double-crip door latches give added protection against the chance that doors may open under impact. They have been proved in full scale crash tests.

A new three-spoke Ford steering wheel, which soaks up pressure and will not collapse below the steering column under impact, has its centre hub recessed 3-1/8 inches below the wheel rim.

Rear view mirrors have a special backing designed to prevent shattering.

Front and rear seat mountings have been strengthened so they will resist greater impact.

In addition, Fords for '56 offer two optional safety devices. Seat belts, designed to withstand pull up to 4,000 pounds, will help to hold occupants inside cars, and to prevent forward motion. At-track vinyl-covered cushioning for instrument panels and sun visors will help absorb impact if a person is accidentally thrown forward.

Styling advances in the Ford for '56 include a new grille with oblong parking lights at the outer ends, set in frames which wrap around the fender sides. Body side moldings is restyled for Fairlane, Station Wagon and Customline models. Restyled tail lamps and deck lid handles, a larger recessed hood ornament, and a completely new grille are paired with new moldings in all models.

The 1956 Victoria is 1½ inches lower than the comparable 1955 model. Two door and four sedans also have new tops reducing total car height almost full inch. However, headroom was not reduced since the contour change is mostly along the top's center line, and fabric headlinings are installed closer to the steel top.

An addition to the line is the Parklane Station Wagon, a two door vehicle which offers an eight-by-five foot load space with tailgate extended. It is fitted inside with deluxe upholstery and trim combinations, and has special bright metal trim inside and outside.

Everyone in normal health should be able to swim, not merely for the benefit of the exercise but also because knowing how to care for oneself in water may prove a life-saver in emergency.

Best football T.V. coverage on continent

Chrysler of Canada, with the C.B.C., will sponsor all telecasts of Canadian professional football this fall.

This announcement was made jointly just as Chrysler World went to press, by E. C. Row, president and general manager of this company, and Alphonse Outmet, general manager of the Canadian Broadcasting Corporation.

Carry 14 to 28 Games

Games of the "Big Four" league will be carried on all interconnected English language stations in the Eastern time zone, while non-connected stations will receive a tele-recorded game each week. The ten connected stations will telecast 22 to 28 games each, and the three non-connected stations 14 games.

In Western Canada, two games of the Western Interprovincial Football Union will be televised most weeks, and every western television station will receive the most appropriate and interesting game each week. These will be on a delayed basis since no inter-connections yet exist in the Western and Pacific region.

Stations located in cities in which the games are actually being played are not permitted to carry a game in the play on their own city on the day it is played. In most instances, however, they may carry a game on the following or other days. These restrictions apply only to the regularly scheduled league games.

Television Grey Cup "Live"

The spectacular Grey Cup final, originating this year in Vancouver, will be carried "live" to the inter-connected Mid-Eastern network including Windsor, Toronto, Montreal, Ottawa, London, Kitchener, Hamilton, Barrie, Peterborough and Kingston. Delayed telecasts will be seen on all other television stations in Canada, as far east as Quebec City, either on Sunday or Monday following the game.

Big Four playoffs also will be seen "live" on the Mid-Eastern network, and on a delayed basis on most other Canadian stations. Mr. Row announced also that Chrysler of Canada will sponsor two additional television programs, commencing December 4. They are the spectacular "Shower of Stars," which will be seen on Sunday afternoon each month, and the dramatic series "Climax," to be shown on remaining Sunday afternoons in the month. These will be carried on all Canadian television stations with the exception of the French network.

Making the announcement, Mr. Row said that the very sizeable outlay for television will be accompanied by an increase in the company's general advertising appropriation, already among the largest in Canada. More newspaper space will be used that at any previous time in the corporation's history.

Tuberculosis is a communicable disease and, while it may seem to be almost under control, there is still need for every Canadian to have chest x-rays so that every case may be discovered and treated before it can become firmly established. The x-ray examination is free of charge in most areas.

Notice To Creditors and Claimants

In the Estate of TROFIM (TROFIN) BELIK, late of Coleman, Alberta, Miner, Deceased.

Notice is hereby given that all persons having claims upon the Estate of the above named TROFIM (TROFIN) BELIK who died on 9th May, 1955 are required to file with the undersigned by 28th October, 1955 a full statement duly verified of their claims and of any security held by them, and that after that date the Administrator with Will annexed will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims so filed or which have been brought to his knowledge.

Advertising...

★ ★

Modern advertising is a necessity to hold and build business. Be proud of your business, of the goods you have to sell, of the services you have to offer in your particular line. Show the progressive spirit and the desire to serve by advertising. Do not hide your light under a bushel — proclaim far and wide who you are and what you have to sell and where your place of business is, for public memory is short, and advertising is a powerful aid to all types of businesses. Moreover, people as a general rule shop where they are invited.

THE COLEMAN JOURNAL

50th Wedding Date Is Observed

BLAIRMORE — Mr. and Mrs. Thomas Galicia of Blairmore were honored on their fiftieth wedding anniversary on Sept. 16th. Over 200 friends and relatives gathered in the Elks' Hall here to congratulate the couple and enjoy a social evening.

Mr. and Mrs. Galicia were both born in Radziejow, Poland. Thomas in 1880 and Mary in 1889. Both old timers are still enjoying perfect health. The couple were married in Poland, and came to Canada in 1921 settling in Blairmore where they have resided since. Mr. Galicia was employed with the West Canadian Collieries mine in Blairmore until his retirement two years ago.

Mr. and Mrs. Galicia are the proud parents of seven children, three sons, Walter, Bruno and Joseph, all of Blairmore and four daughters, Mrs. John Hadas of Blairmore and Mrs. Walter Michalsky, Mrs. Martin Hanks and Mrs. Mike Czech all of Coleman; thirteen grandchildren and eight great grandchildren.

Accompanied on the arm of their eldest daughter, Victoria Michalsky and their eldest son, Walter, the couple was escorted to the head table. On entering the hall corsages were pinned on the happy couple by their granddaughters, Miss Annie Hadas of Blairmore and Mrs. John Thiessen of Lethbridge. The head table centred with a three tier wedding cake was decorated with a bouquet of roses, gladioli and carnations donated for the special occasion by Harold Pinkney and the staff of the F. M. Thompsons store.

A toast in Polish was proposed by Mr. M. Makrowsky of Coleman after which a lunch was served. Later in the evening Rev. Dean A. Anderson of Blairmore congratulated the couple on this special occasion.

The couple was then called upon and both were presented with gold wrist watches by their great grandchildren, Monica Kropinak of Coleman and Terrence Hadas of Blairmore. In response for the fine gift and celebration, Mrs. Galicia ably thanked all the friends and relatives.

Salvation Army Hold Special Films For Children

The Salvation Army this week held a series of interesting films for the younger members and all interested children.

These films on various subjects, were greatly enjoyed by all those present. Songs were sung by those in attendance. This was climaxed on Sunday when all the children were in attendance at the Sunday School classes held in The Salvation Army hall.

Around Town Chatter

We wonder what happened to the aspiring "Roger Bannisters" on their mile run Friday evening? According to reports both had to give up after the first few hundred yards. Could it be, boys, that your wind was not what it used to be or maybe the legs and soleless shoes discouraged you from continuing the race? Oh, my how youth fades! The old grey mare just ain't what she used to be.

Mention is in order to those two ardent fishermen who stated that no fish would be brought back under two pounds. I understand that they were successful in bringing one that if it was fully fed and wet might weigh two pounds.

Eight or nine prominent gentlemen of Coleman will proceed to Kilsbuck on Saturday to watch the World Series games on television. This time it is hoped that the cooks will find the proper cooking equipment and not have to use toothpicks to turn the bacon and eggs.

National Immunization Week

National Immunization Week, it is announced by Dr. Gordon Bates, General Director of the Health League of Canada, writing in the current issue of HEALTH Magazine, will take place this year during the week of September 25th. This week, organized by the Health League of Canada in co-operation with health departments, has as its objective the calling to public attention by all means possible the importance of immunizing children against the various types of disease for which an immunizing agent exists. The diseases in question include, smallpox, diphtheria, whooping cough, tetanus and now poliomyelitis or infantile paralysis.

The record of Canada in the control of diseases of this type is very good. For example, smallpox is practically non-existent in this country. Diphtheria seems to be on the way out. In 1943 there were 2,804 cases with 287 deaths. By 1953 this figure had been reduced to 132 cases with 15 deaths. Whooping cough, a much more serious disease than most people think affected 19,082 in 1943 and killed 416. By 1953 this figure had been reduced to 9,381 cases and 142 deaths.

There has been some discussion of the importance of National Immunization Week. Some people think it should be abandoned and a week devoted to the prevention of accidents substituted. Some think that the date should be changed to make the week conform to the programme of certain Departments of Health.

It is important to remember, however, that the fight against diseases of this type is not finished. The struggle to control polio indeed has only commenced. In 1953, in fact, 481 children died of this disease which seems to have moved over into the category of preventable. There are far too many cases of whooping cough and in 1954 there were 76 more cases of diphtheria than in the previous year. The price of success in the control of these communicable diseases is eternal vigilance.

In our opinion the date of the event is not particularly significant. Once a year every parent in Canada should be given the opportunity of learning how to prevent communicable disease among children. The danger is that if nation-wide propaganda is discontinued there will be an increase in disease rates, arising purely and simply from the fact that parents have neglected to take necessary precautions of which they have not been informed.

Disease germs collected on the hands may be transferred to the mouth with food, unless the hands are washed immediately before eating. Children should be taught to do this as early as possible.

Court Cases

BLAIRMORE — Frank Slavik of Summit Lime Works Sentinel appeared before police magistrate F. S. Radford of Blairmore last week on a charge of speeding in the Cragford area. Radar was used to pick up the speeder. Slavik was fined \$10 and costs.

David Welsh Sr. of Hillcrest, Martin Kubik of Blairmore and Howard Picard of Blairmore all appeared before magistrate Radford charged with failing to file income tax forms. Each was fined \$25 and costs.

James A. Smith of Lundbreck also appeared in the docket on a charge of not having clearance lights on his truck. For the offence, Magistrate Radford levied a fine of \$5 and costs.

Early Alberta history proves colorful, romantic

Although Alberta as a province has existed for but 50 years, her history stretches far back into time. Her rich coal and oil deposits speak to us of the vast sea and marauded from which she once emerged. Most scholars think that somewhere between this era and the advent of Columbus the Indians, Alberta's native inhabitants, made their way across the Bering Strait to North America.

Fur traders and explorers were the first white men to visit the Indian tribes of what is now Alberta. The first, and one of the most famous, was Anthony Henday, a Hudson's Bay employee, who, in 1754, crossed the Saskatchewan River near modern Saskatoon, wandered over the prairies, and joined and recorded in his diary a Blackfoot buffalo hunt. Henday spent the winter on the Red Deer River just east of the Calgary-Edmonton trail and in the spring returned to York Factory by way of the Saskatchewan.

Fur trade in the Northwest mushroomed after Henday's visit. For 50 years the Hudson's Bay Company and the Northwest Company of Montreal struggled bitterly for trade supremacy, until the conflict was ended by the union of the two companies under the name of the Hudson's Bay Company. From then on affairs of the area moved peacefully, though with little evidence of progress, until Confederation in 1867.

In 1869 the Government of Canada purchased ownership of the Hudson's Bay Company territory for \$1,500,000 and certain grants of land. The "Northwest" country thus became the "North West Territories." The same year saw the rebellion of the Red River Metis under Louis Riel, with the resultant formation of the province of Manitoba in 1870.

In 1871 the Government of Canada established a lieutenant-governor and a North-West Territories Council for administration. In 1882 the North West Territories were divided into the districts of Assiniboia, Saskatchewan, Athabasca and Alberta.

With the maintenance of law and order by the North-West Mounted Police, organized after the first Riel Rebellion, settlers began to trickle in, but it was the joining of Calgary to Edmonton by the Calgary-Edmonton railway in 1890-91 which brought the greatest influx of settlers to Alberta from Eastern Canada and the United States. Serious administrative problems were soon raised for an overworked territorial government at Regina, and a demand for decentralization grew among the citizens. This demand was met by the introduction, in February, 1905, of the Autonomy Bill, known popularly as the Alberta Act. Its approval in July, 1905, by the Senate of Canada permitted the incorporation of the Province of Alberta from the District of Alberta, the western half of the District of Athabasca, and parts of the Districts of Assiniboia and Saskatchewan.

On September 1, 1905, was the official inauguration day. Autonomous government got under way on March 15, 1906, as the first meeting of the Alberta Legislature was held in a flag-bedecked Thistle Skating Rink, in Edmonton. One of the results of the following session was the election of Edmonton as Alberta's capital.

Autonomous government got under way on March 15, 1906, as the first meeting of the Alberta Legislature was held in a flag-bedecked Thistle Skating Rink, in Edmonton. One of the results of the following session was the election of Edmonton as Alberta's capital.

Calgary Fish Hatchery

The capacity of the Calgary Fish Hatchery, incubator of all the young trout planted in Alberta lakes and streams, has been doubled with the completion of new

hatching facilities.

The hatchery addition was built at a cost of \$120,000 by the Calgary Brewing and Malting Co. Ltd., which is responsible for all capital construction and maintenance costs. The Fish and Game Branch of the Alberta Department of Lands and Forests pays the salaries of all hatchery workers, some incidental maintenance costs, and the expense of feeding the fish.

Fish and Game Branch officials regard the new hatchery as the last word in technical equipment. All equipment was installed according to specifications drawn up by the Lands and Forests Department and the result has given Alberta one of the finest hatcheries in Canada.

New Well Drilled

The new hatchery is bright, orderly, and attractive. Equipment includes 70 troughs, 14 rectangular tanks, and seven circular tanks, four of 12-foot diameter and three of 8-foot diameter. A new well, capable of producing 1,000 gallons of water per minute, was drilled to provide the water which passes through an aerating system into the hatching troughs. In addition, there is office space and a laboratory, which can be used by fish biologists and sanitary inspectors of the Alberta Health Department.

The new addition is the latest stage in the evolution of a fish hatchery which has benefited hundreds of Alberta fishermen and delighted thousands of visitors.

The Calgary Fish Hatchery was started in 1938 when the Calgary Brewing and Malting Co. Ltd. received a permit from the Alberta Government to hatch a few trout.

The company obtained eggs from the Kananaskis Lakes spawn camp of the late Jack Martin, who personally planted large numbers of fish in Alberta. This marked the beginning of the cordial partnership between the Lands and Forests Department and the Calgary beverage company. In 1949, the hatchery was expanded and moved to another part of the brewery and this year the latest expansion was completed.

Lands and Forests Staff

All hatchery operations are directed by Alex Sinclair, hatchery superintendent, while William H. MacDonald, Lands and Forests liaison officer at Calgary, integrates the hatchery program with fish planting work and biological research. Mr. Sinclair has two permanent employees to assist him, while two extra workers are taken on during the summer months.

Eggs for the hatchery are purchased in the United States by the Department. Rainbow trout eggs are purchased mainly from Massachusetts, although some eggs come from Montana and Washington. The eggs are delivered at two periods — at December and June.

The eggs received in December are ready for planting in lakes and streams around June 1, with the eggs that are received in June planted in July to complement the earlier June plantings.

Warm Water Aids Incubation

When eggs arrive, they are placed in the running water of the troughs, kept at a temperature of 54 degrees to aid incubation. After hatching, which may require from 10 days to three weeks depending on the stage the eggs had reached when delivered, the young fish begin life in the hatching troughs.

Between the hatching time and the period when they can fend themselves, the trout are nourished from a yolk sac, which young fry carry with them after hatching. Once the yolk sac is absorbed, usually within a week, the fry make their transition to finely ground liver distributed into the water in a thin paste. This stage is the most critical of the hatchery routine since some of the fry are reluctant to try the strange new food. Later, in the rearing ponds, when circumstances are appropriate for such food, horsemeat is fed to trout over a year old but ground liver is the only diet for the younger fish. The feeding of the fish in the hatchery is one item of great annual expense to the Fish and Game Branch, costing from \$6,000 to \$8,000 a year.

Hatchery Supplies 80 Percent of Plantings

At the present time, 80 percent of the trout planted in Alberta come from the Calgary Fish Hatchery, while the remainder is distributed from the rearing ponds at Raven and Calgary. This year, more than 1,500,000 trout will be planted in Alberta.

It is always wise to find out if the water where you plan to swim is safe from pollution. Children or adults may contract such serious diseases as typhoid fever if the river or lake is polluted.

★ ★ ★ ★

★ ★ ★ ★

POLICE RECOVER ARMS FROM IRISH EXTREMISTS—Arms and ammunition, believed stolen from a British army depot at Arborfield, Berkshire, are removed by police from an empty shop in London after a raid on a shabby second-hand market area. Arms were taken by Irish extremists.

KING-SIZE—This 20-ton statue of Ramses II, conquering pharaoh of Egypt's 19th dynasty, dwarfs 20th Century humans as it is raised from its centuries-old resting place.

PLOTTING HIS COURSE—Light-heavyweight king Archie Moore appears to be fathoming the pugilistic seas ahead. With a yachting cap added to his usual sporty attire, Archie stares straight ahead during his contract signing ceremonies for his title bout with heavy-weight champion Rocky Marciano on September 20 at Yankee Stadium.

FASHION LETS HISTORY GO TO HER HEAD—Influence of dress still worn in the Holy Land is seen in the hat pictured at left, which is reminiscent of headdress of Biblical times. Recently modeled in Rome, Italy, it is fashioned of alternate bands of pale blue and dark red velvet. At right, medieval influence is apparent in this new pillbox crown with long mantle, now being shown in New York City. Of heavy mauve pink satin, it is trimmed with rhinestones, pearls and small white beads.

FISH, FLESH, FOWL—Tony Baird, of Everett, Wash., takes on attributes of the finny and feathered world when he's at play. Towed by a fast motorboat he takes to the air with aid of a kite while riding water skis. Holder of an unofficial world's altitude of 100 feet for this means of soaring, he's shown making the sport even more exciting by wearing only one ski.

NICE CATCH—Jean Middlebrooks, of Thomaston, Ga., has the curves to fit her summertime job. A senior at Wesleyan College, Macon, Ga., she coaches baseball and tennis during the vacation period.

"RED" MEN MEET—Chippewa Chieftan Clear Sky and his wife, Evening Star, great Vladimir Matakevich, chief of Russia's farm delegation which toured the United States, as the "Red" man from overseas visited Princeton, Minn.

No Joke

CALGARY—The wrong number is no joke to the Calgary fire department which has picked up the phone needlessly at an average rate of 100 times a day since the start of the year.

Most of the fruitless rings are the result of careless dialers who somehow can convert a normal five or six digits into the official fire call—100.

Others come for every reason ranging from the alcoholic who wanted "two crocks of rye" to the girl who liked the operator's voice and wanted to make a date.

IN THIS portrait, the Princess wears a pale yellow dress of paper shantung taffeta and a collar of white organza, a five-strung pearl necklace and a rose diamond brooch.

THIS IS MAIN STREET in Winsted, Conn., after the flood. Two shopkeepers make their way through debris after flood waters from the Mad River tore up Main Street to a depth of eight feet. The city reported six dead, four missing and 1,000 homeless, with

damage near \$50,000,000. Officials said 85 percent of business firms were washed out. Seven bridges nearby were swept away. Twenty-three thousand persons were vaccinated against typhoid after waters receded.

BEAR CANDY—That's what ice cakes are to this polar bear and his two grizzly companions who tour with the Ringling Brothers' circus. This particular treat was fed to them in Chicago, Ill., during a recent hot spell, and another serving is forthcoming every time the show is on location where the temperature sizzles.

Let The Journal Handle Your Printing

Personalities IN THE NEWS

Mr. and Mrs. J. Rogers were Calgary visitors over the week being guests of their daughter and son-in-law, Mr. and Mrs. E. Fontana.

Mrs. I. Berkenshaw and two children from Calgary visited former parents Mr. and Mrs. A. Fry.

Mr. and Mrs. W. Macleod have recently purchased the home of Mr. and Mrs. E. Fontana.

Mr. and Mrs. Ed. Ash recently visited their daughter and family Mrs. R. Amill at Edmonton.

Numerous flocks of wild geese have been flying over this area, winging there way to summer pastures.

Miss Laura Johnston from Calgary visited her mother Mrs. K. Johnston over the week-end.

Mrs. E. Lonsbury is leaving shortly for a two months visit in Nova Scotia.

The janitors of the Central School are busy painting the fence a coat of aluminum paint.

O.S.C.K. Ian Thomson of the R. C. Navy who is stationed at Esquimalt, B.C., is visiting friends and relatives in town, while here, he was the guest of Mrs. A. Cornez.

Ken Hammer recently of Tent Mountain, has taken up residence in Calgary where he has gained employment.

The St. Alban's Ladies Guild held their meeting at the home of Mrs. W. Anderson when it was decided to hold there fall bazaar on Wednesday, Nov. 9th.

Tourist Shelter Guest Books Commend Coleman Trade Board

The following quotations from the guest books placed in the tourist shelter at Coleman's parks, highly commend the Board of Trade and town officials. Here are a few from the many in these books:

We enjoyed this kitchen very much, and thanks to Coleman's Forman for his hospitality. P.S.—How about a little more room for a tent?

Signed—Jacques Benoit, Paris, France.

A wonderful place to stop, one of the finest we have seen. Signed—Jack Vowles, secty. Manager Chilliwack, Board of Trade.

Wonderful; thanks a lot. Mr. and Mrs. G. H. Barnes, Spokane, Wash. Miss Alice Williams, Caracas, Venezuela, S. A.

A nice camp site. Hope more towns copy you. Mr. and Mrs. R. J. Brown, Sylvan Lake.

A place to be congratulated for a very lovely campsite. Playground one of the nicest we have seen in touring Canada. Thanks, folks, and progress well and fast. Mr. and Mrs. Hank Henderson, Seattle, Wash.

A good campsite. Not enough of them.

Mr. and Mrs. A. Downie, Vancouver.

Grand! Gay and Bill Stratton, Ottawa, Ont.

Like an oasis in the desert after travelling across the prairies. Many thanks.

Mr. and Mrs. N. Frost and family, Schiebee, Ont.

Sunday morning three more of our young men about town left by car to seek employment. Recently out of work owing to the lay off of the strip mine at Tent Mountain, Dave and George MacDonald accompanied by Bob Hoggan of McGillivray Mine, set out for Prince George, B.C., where they hope to go to work. Dave as plumber's apprentice and George and Bob at mill work. "Best of luck, boys."

At the regular meeting of the Pythian Sisters, Coleman, it was decided to hold there bazaar on Sat., Oct. 22.

The Misses Helen Morris, Irene Hatalchuk and Rosanne-Pytarz left to attend university at Calgary.

Adam and Angie Wilson have returned from a holiday spent in Concrete, Wash., where they visited with Angie's uncle and aunt Mr. and Mrs. Guy D'Amico.

Mr. and Mrs. Bill Bell of Claresholm, visited in Coleman over the week-end, guests of Mr. and Mrs. W. Poxton.

Mr. and Mrs. Johnny Kovack have left to take up residence in Calgary, where Mr. Kovack has obtained employment.

Mr. and Mrs. Roy Garrat and two daughters have returned from a holiday spent at the west coast, where they visited with Mr. Garrat's parents, Mr. and Mrs. Bert Garrat.

Miss Helen Makowichuk has left for Edmonton where she will enter the University of Alberta to take a course as lab technician.

Mr. and Mrs. Allen Kostelnik and daughter are visiting at the home of the former's parents, Mr. and Mrs. J. Kostelnik.

Mr. R. Jenkins is leaving this week to spend the winter months with his son Douglas and family at the coast. Mr. and Mrs. J. Seulz and family will occupy his home in his absence.

Thanks for a campers' paradise. P. S. could use a few nails or hooks in kitchen.

J. A. Petherstonhaugh, Hancey, B. C.

This town is bound to progress since it has not only ideas but courtesy and consideration, as well as location.

C. Wilson, Calgary.

Nice going. Just pass the idea around.

J. Hughes, Kalispell, Mont.

P. H. Yearout, Portland, Ore.

Handy stop-over. Mr. and Mrs. Ed Phillips, Woodridge, Ont.

Mr. and Mrs. Roy Cousins, Brussels, Ont.

Thanks for the accommodation provided by your Board of Trade. Am mailing a dollar to pay for the axe handle we found broken at the wood-pile, in appreciation. Rev. and Mrs. C. R. McMurty and family, Weaskiwin, Alta.

Well done, Coleman Board of Trade. First time I have ever found such facilities—east or west Canada.

Anne Metcalfe, Edmonton.

We were very thankful for this kitchen.

Rev. and Mrs. Axene, Edmonton.

Thanks for a lovely spot to stop. Such a place is a credit to any town. We will always remember Coleman with pleasant thoughts. There were five family units here last night all appreciated it. C. S. Natchett and family, Minnedosa, Man.

You have an excellent kitchen here for everyone to enjoy. Most of all the tired tourist. We have travelled 3,000 miles and have seen no better.

Rev. and Mrs. Ian Presley, 2385 Rosemount Blvd., Montreal 38, Que.

Congratulations Coleman! Such excellent facilities are well come sight to the weary traveller. —especially enjoyed your anniversary booklet. More towns should follow your example. Always will remember your history and location.

Vern Calloway and family, Saskatoon, Sask.

We wish to express our sincere appreciation to the Board of Trade for their thoughtful contribution to tourists and to courtesy of the chief of police who spoke to us. This spot has helped to make our trip more enjoyable.

Mr. and Mrs. M. Stralook, Edmonton.

Wonderful! Robert and Jean Peel, Nelspruit, Tvl., South Africa.

Your hospitality is most commendable. We have remarked so many times about the Canadian friendliness and we hope to go back to Montana to tell of your cordial welcome. Come to see us, too.

Mr. and Mrs. D. R. Warfield, Great Falls, Mont.

Other fine and wonderful comments come from California, Ohio, Utah and oh, so many places and people. It is proven by the above-mentioned comments that no finer form of advertising for our town has been done than by the tourist shelter. Our Board of Trade deserves the utmost sincerity of our appreciation for their efforts and to sum this up I quote the following:

"You have lovely location and a good start. Keep it up. Your Chief of Police and assistants are real boosters for your town. With continued co-operation and goodwill you cannot lose. Signed, O. Lundberg, Mayor, Alix, Alberta."

DO YOU REMEMBER

(From The Journal Files of 10 Years Ago This Week)
Headlines: Pass Butchers on Strike—Miners Lay-off Work.

Miners Demand Double Ration of Fresh Meat.

No sign of butchers' strike ending; Donald Gordon states meat rationing to stay.

Thursday, September 27, 1945—Today the local miners union executive called a mass meeting to discuss the meat rationing system and the proposal to lay-off work until such times as the federal government acceded to the demands of the coal miners. The mines down the Pass have been idle since Wednesday and the Coleman miners will be idle from midnight on.

Mrs. A. F. Short left Coleman to reside in Calgary. She is the daughter of the late Mr. and Mrs. Harry Gate.

Sgt. Jim Kroesna Awarded the Military Medal.—This is the second Coleman soldier to receive the Military Medal. George Derbyshire, who now has his release from the army, having won the award for outstanding gallantry while in action in Italy. Sgt. Kroesna has been a crew commander in every operation in which 29 Canadian Armored Reconnaissance Regiment has participated in since August, 1944.

Roy Garrett, son of Mr. and Mrs. Bert Garrett of East Coleman has been mentioned in the dispatches for gallantry, according to an Ottawa release this week Roy has seen action in both fronts—Italian and Western.

Sgt. Charles Maurer, released from Japanese Prison.—Captured in the Philippines while serving with the U. S. Marine Corps in 1942, has been a prisoner in Japan for the past three years.

Salvation Army Drive Shows \$426 collected to date out of Coleman's quota of \$500.

Ellis Derbyshire arrived home on Saturday from overseas to surprise his parents and friends. Two wires which he had sent from the east coast had failed to reach his parents ahead of him.

Jimmy Slugg reports to Montreal Canadians, and Johnny Ryple reports to the Edmonton Canadians.

Showing at the Palace Theatre—"The Fighting Guardsman" followed by "For Whom the Bell Tolls".
